Fourteen years since its establishment, the work of the African Commission on Human and Peoples' Rights has not received the attention that should have been paid to its important contributions towards the promotion and protection of human rights in Africa. The aim of this publication is to provide not only the basic documents, but also the less well known material related to the jurisprudence emanating from the consideration of communications. This book, therefore, includes, amongst other material, the twelve activity reports adopted by the Commission, resolutions, and final communiqués from the sessions. This is the first attempt to reproduce comprehensively the many documents of the Commission adopted since its inception in 1987. It will therefore be an essential reference for academics, students, and practitioners. The publication is produced in collaboration with the African Society for International and Comparative Law, the Centre for Human Rights at the University of Pretoria and Interights in London.
